

Chesterfield, N.H. Conservation Lands, Hiking Trails, and Other Recreational Opportunities

The Town of Chesterfield has numerous recreational opportunities including trail hiking, boating, swimming and bicycling. The town's extensive network of beautiful trails, which wind through parks and other conservation lands, can be located using this map. Several of these locations have detailed maps available on site. Additional information can be found by going to the Town Office or by visiting the Chesterfield Conservation Commission's website, which can be found at www.chesterfieldoutdoors.com.

This was made possible by a grant from the Quabbin-to-Cardigan Partnership (Q2C). Basemap information was provided by NH GRANIT, ESRI, SWRPC, Monadnock Conservancy, VCGI, as well as the Chesterfield Conservation Commission. This map should be used for informational purposes only.

Maps are available at all parking locations.

For more information on the Gorge email friendsofchesterfieldgorge@gmail.com.

Western section of Wantastiquet-Monadnock Trail. Maps available at chesterfieldoutdoors.com.

For maps and other information on Pisgah, visit friendsofpisgah.org.

Keene Connector of Wantastiquet-Monadnock Trail. For maps, please go to chesterfieldoutdoors.com.

*Cyclists using these suggested bicycling routes should use utmost caution when riding and obey all laws of the road. SWRPC and other partners are not responsible for the actions or safety of riders. Please ride with traffic and wear reflective clothing. These routes are part of a collaborative effort with VT and MA. Most of these are scenic local roads.

**The Pisgah section of the W-M Trail goes from the Kilburn Trailhead parking lot on the west side of the park to Beals Rd trailhead on the east. Map created in May 2014.
